Key Findings

Beverages leads growth in absolute dollars (\$858K YoY) at 8.0% — the highest growth rate of any category. It also carries the strongest GM rate at 31%, making it the most valuable category to protect from stockouts.

Pet is the slowest-growing category at 4.0% and carries the lowest GM rate at 24%. Promotions in Pet should be evaluated carefully — trade spend ROI is thinnest here.

Total portfolio growth of 6.8% YoY is driven primarily by Beverages and Home Care, which together represent 63% of total sales. Beauty & Personal Care is the strongest performer on a rate basis relative to its size.

Talking Points for Buyer Meetings

- 'Our total portfolio grew 6.8% YoY — ahead of the category average. Beverages and Home Care are the primary growth engines, together delivering \$1.42M of the \$2.04M total dollar gain.'
- 'GM rate held at 28.5% despite promotional investment — promo mix is being managed efficiently across the five categories.'
- 'Pet is the watch item. At 4.0% growth and 24% GM, it is the category most exposed to promotional spend without meaningful return.'
